
Attack on Patterson

Posted by Andrew - 2008/06/08 22:57

Well that women Donna Worley has started getting her signatures together. Another lady has been hitting homes in Colony Park trying to get signatures to limit growth and limit the terms of the city council.

Ms. Worley comes to town & one month later goes to a council meeting & starts stirring it up. She said she was unemployed, yet she has money to pay hundreds of dollars to get initiatives on the ballot and pay people to go door to door to get signatures.

Please think before you sign.

Limiting growth will ensure that we never have a movie theatre, shopping etc. Our taxes for city services will only cost more because there is no growth in sales tax to keep that burden from hitting our wallets. Stores & such don't move to Stagnant Communities. Let the economy drive the need for growth. The City's plan will keep the "how much" in check. You can only grow as big as your city's plan.

Term Limits on the City Council means whoever is paying for Donna Worley's Rent, Gas, Food, and Petitions want's to ensure that the same people that serve today will not be in position for the future. She has been very supportive to West Park, getting in the mix within days of moving to Patterson eight months ago.

Also, the Modesto Bee wrote a story about the West Side a few months back and mentioned her trying something similar in City of Rialto, Ca.

DONT TRUST THESE INITIATIVES OR THOSE THAT ARE PUSHING THEM.
